

— 2x Ø30"

A cross-sectional diagram of the MBR system. The diagram shows a rectangular tank with a concrete base and walls. Two MBR modules are suspended from the top. Dimensions are indicated: a 4" inlet pipe on the left, a 12" gap between the modules, and a total height of 87" from the base to the top of the tank. The distance from the base to the bottom of the modules is 73". The modules are labeled "MBR MODULE 50 LB". The top of the tank has a 4" thick layer, and the base has a 4" thick layer.
